CHRISTMAS SMILES, TOOTHBRUSHING CLUB, NEW WEBSITE, FREE DRAW

May we thank you all for your support in 2012 and hope we can be of service in 2013. Best wishes for the festive season.

Are you stuck for ideas for Christmas? Well then maybe we can help you out! Provide a **sparkling, safe smile** to someone you love (including yourself!) by treating them to toothwhitening. This has become more popular with the clamp down on the illegal use of unregulated, unsafe whitening procedures carried out by some unscrupulous beauty salons. The only legal way to have your teeth whitened is by your dentist, to protect that winning smile, what about a professionally made, **personalised gumshield** in the colours of your favourite team? This is especially true because of new regulations in GAA making wearing a gumshield compulsory for all U-18'S in 2013.

Gift vouchers are available at the practice and can be ordered over the telephone with payment being taken by card and posted out to you.

TOOTHBRUSHING CLUB

Sessions will be geared around school holidays and take place from **12.30pm to 1.00 pm**
Wednesday 3rd January
Wednesday 4th April

FREE ANNUAL DRAW

A timely reminder about our free annual draw for registered patients; prizes can range from book tokens and music vouchers to a **Christmas hamper**. To enter you must have attended, and successfully completed a course of treatment, during 2012. The draw will take place in the week before Christmas. As the saying goes "if you're not in you can't win!"

CHECK OUT WEB SITE

Recently we have been updating our website adding in further information and making it more patient friendly. If you have not checked this recently please feel free to browse a

If you have any comments on how we can improve our website please let us know.

LESS FILLINGS AND EXTRACTIONS @ THE GRANGE

es it's true. According to government statistics patients of this practice are likely to have up to **30% less** filling carried out annually than the average practice in N. Ireland. This is great news for our patients and a ringing endorsement of our integrated **preventive policy** involving all team members (receptionist, nurses, hygienist, therapist and dentist). Local statistics also show that our patients have less need to use the on call service. This shows how our preventive policy and our efficient booking system is minimising the amount of **dental pain** experienced by all our patients.
